Tajik agrarian University named after Shirinsho Shotemur

Action 2 (deadline -10th February 2015)

	General information	
Partner-country	Tajikistan	
General information about region	Tajikistan is a country in Central Asia, which borders with Uzbekistan on west, China on east, Afghanistan in south and Kyrgyzstan in north. Tajikistan is the smallest among other Central Asian republics. Its economy is mainly agriculture oriented. Most tangible export products are aluminum, cotton, fruits and vegetables. Domestic animal breeding is also widely practiced.	
Name of university: Website:	Tajik agrarian University named after Shirinsho Shotemur www.tajagroun.tj	
Brief description of university, faculty, number of students	In 1931 on the base of agricultural faculty of State University of the Central Asia was set up Central Asian Fruit-and-Vegetable Institute in the city of Khujand. According to prospects of development of branches of agriculture there was an expansion of structure of preparation of specialists. In 1934 the institute has been reorganized and renamed into the Tajik Agricultural Institute. Taking into account scientific and pedagogical potential of the staff in the field of agrarian and industrial complex, by the decision of Council of Ministers of Tajikistan from August 1992 was reorganized into Tajik Agrarian University (TAU). By the Decision of the Government of Tajikistan (#311 from October 31, 2009) Tajik Agrarian University was renamed to Tajik Agrarian University named after Shirinsho Shotemur. (TAU).TAU is Tajikistan's leading institution in the field of agriculture, land management, environmental engineering and related subjects. The university consists of 9 faculties, with about 6800 students and 470 teaching staff.
